What changes could be made to improve the teaching or the content of this course?

None.

Give more work

- I wish the stuff he said in class were on the slides as well. He says a lot of important information that isn't on the slides
- Wish there was more guidance on multiple choice
- I took AP Gov & knew most of this information, but if I didn't, I might've been somewhat lost.

maybe not linger so much on one topic and be more clear & straightforward about concepts.

I think the wording of his multiple choice questions could be worded more comprehensively.

Evaluation of Instruction and Course

University of Missouri

Easier tests, but the challenge is good. Honestly, I didn't think there needed to be any changes made, & loved it.

Make the readings more necessary for the class. I read about half the readings and still did well.

None

The multiple choice needs some sort of study guide.

clearer wording of test questions

Evaluation of Instruction and Course

University of Missouri

~~and a rubric for essay~~

Grade assignments in a more timely matter.

His grading was sometimes too strict on tests,
as ~~I~~ wouldn't know what he was
looking for.

NYA

Felt grading on tests were really unfair and
many questions were extremely difficult.

Evaluation of Instruction and Course

University of Missouri

No 20 Point quizzes every week! ~~They~~ Make may be 5 Quizzes throughout ^{the} semester that are worth 20 points.

More prep for the multiple choice section of the test

Multiple choice on tests were very hard.

Slow down the pace of what sections he's teaching.

questions on exams were worded weirdly & caused me & others confusion at times.

Evaluation of Instruction and Course

University of Missouri

Sometimes the multiple choice question wording was a little hard to understand what the question was asking.

Would've been helpful if he gave us better advice on how to study for the exams

the online readings - never used them & wasted money

the multiple choice questions on the exams are too difficult. The fact that I would get 100% on short answer but 90% overall on the test was frustrating because I knew the material.

Possible review sessions?

Evaluation of Instruction and Course

University of Missouri

None

I think it would be better to have quizzes on Monday following the week of learning, so no new material appears

spend less time going a little off topic so more slides could be covered
